Knowledge of normal endoscopic ultrasound (EUS) anatomy is the basis for orientation in EUS. Therefore, training in important anatomical landmarks is mandatory for each endosonographer.

Radial Endoscopic Ultrasound â€“ Anatomical Guiding ...

In molecular biology, transformation is the genetic alteration of a cell resulting from the direct uptake and incorporation of exogenous genetic material from its surroundings through the cell membrane(s).

Transformation (genetics) - Wikipedia

A fuel cell is an electrochemical cell that converts the potential energy from a fuel into electricity through an electrochemical reaction of hydrogen fuel with oxygen or another oxidizing agent. Fuel cells are different from batteries in requiring a continuous source of fuel and oxygen (usually from air) to sustain the chemical reaction ...
